Hello A. Sang,

There are some patents relate to method and apparatus for preparing the defects of a semiconductor specimen in class 356/237.1+; however, I don't recall any reference does all the steps as now claimed in claim 1.

Good luck!

HP

Helloe, Pham Hoa

please, reviwing the application 10/783,520 for allowable with claim 1. I would like to send Quayle action because some thing I must be objected it (i.e., drawing, minor error in claim). Please, give me your idea for allowable this application.

Thanks  
Sang Nguyen
